INNOVATIVE ITALIAN STARTUP

Market

The healthcare system is overburdened, creating a growing demand for immediate and accessible informational support that human resources alone cannot meet.

Business Model

Enterprise (B2B):

Our focus is on commercializing **DrGuido**, our proprietary **AI Health platform** for empathetic relationships, targeting **Healthcare Companies** and the **Corporate Welfare** market.

DR. GUIDO
AI DOCTOR APP

Ai Doctor Custom API

2025:
The DrGuido platform offers **Custom APIs** for the healthcare sector. Healthcare companies, insurance providers, and medical device firms can integrate customized **AI Doctors** tailored and connected to their clients /patients.

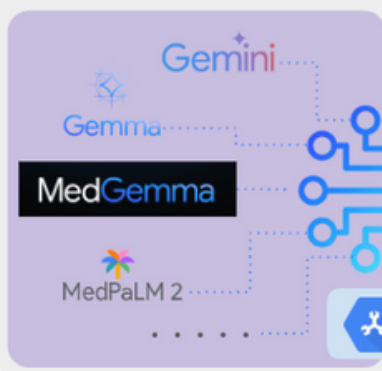

Corporate AI Doctor

2026:

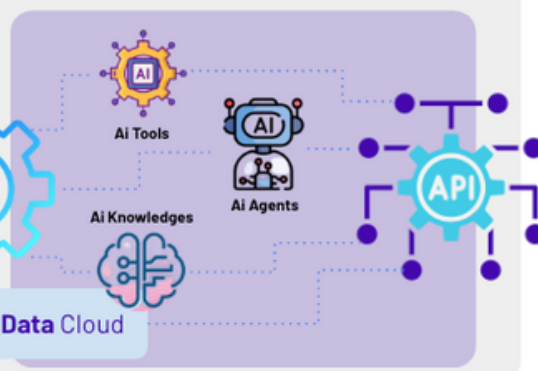

The **Corporate AI Doctor**, a new application of the DrGuido platform for the **Corporate Welfare** market. Any company with more than 10 employees can offer the **AI Doctor app** with personalized services to its employees as a corporate benefit.

Product & Evolutionary Strategy

Ai LLM Orchestrator

Ai Resource Orchestrator

Team

6 co-founders (average age 35) combine senior managerial experience with the specialized skills of AI-native talent.

Technology (Intellectual Property)

The architecture is based on the **DrGuido LLM Orchestrator**, a proprietary "Mixture-of-Experts" system that acts as an "empathetic director" to provide clinically reliable analyses.

Our IP is protected by two innovative, patent-pending methods: the **Empathetic Chain-of-Thought (E-CoT)** to generate authentic empathy and the **Confidence-Gated Negotiation Loop** to ensure the reliability of the analyses.
