

ActionGrid
EMPATHIC AI HEALTH

Needs

Companies must address the rising need for immediate, **empathetic healthcare support for patients and employees** with new smart tools.

Solution

Enterprise (B2B) AI Doctor Platform for **Healthcare Providers** and **Corporate Welfare**: Empathetic Relationship Management with Patients and Employees.

Healthcare Providers

Healthcare companies integrate **Customized AI Doctors** into their digital frontends, transforming every patient's online request into an immediate, **empathetic support relationship**.

AI in Healthcare in Italy: from \$96.5M in 2023 to **\$739.3M by 2030 (CAGR 33.8%)**.

AI in Corporate Welfare in Italy: from \$1.278B in 2024 to **\$1.560B by 2030 (CAGR 3.4%)**.

Corporate Welfare

Corporate welfare evolves into **instant healthcare support for employees** through a white-label **AI Doctor app**. A health benefit that enhances employee well-being while helping companies reduce absenteeism and prevent burnout.

Ai LLM Orchestrator

Ai Resource Orchestrator

Technology

(Intellectual Property)

Our solution is built on **Dual AI Orchestration** (requests and intelligence for **AI Doctor Agents**), protected by two patentable methods:

Empathetic Chain-of-Thought – to instruct AI in empathy.

Negotiation Loop – to ensure reliable, error-free responses.

Co-founders & Team

We combine the solid expertise of **6 co-founders** in **Startups & Fundraising, Digital Business, and HealthTech** with the innovation of **AI Architects** trained in the first academic programs dedicated to Artificial Intelligence, ensuring both strategic vision and technological excellence.
